Education

Jamia Millia Islamia

Bachelor of Technology in Computer Engineering

August-2020 – May 2024

Delhi, India

Experience

Zidio

May 2024 – July 2024

Software Engineer Intern(current)

Remote

- Developing E-Learning Portal interactive web application designed to facilitate online education for students and educators. It features a user-friendly interface where students can Register and login then enroll in various courses, access learning materials, and track their progress. Educators can create and manage courses, upload content, and interact with students through forums
- Creating a Job Listing Portal designed to connect job seekers with potential employers efficiently. It features a clean and intuitive interface where users can easily search for job openings across various industries. Employers can create detailed job listings, specifying qualifications, responsibilities, and company information. Job seekers can create profiles, upload resumes, and apply for jobs directly through the portal. The portal offers advanced search filters, including job type, location, and salary range, to help users find the perfect match. With real-time notifications, both employers and applicants stay updated on application statuses. Secure user authentication ensures data privacy and protection. The portal also includes a dashboard for users to manage their job postings and applications seamlessly.

Technologies/Frameworks: React,NextJs,NodeJs,GitHub, Vercel,Framer Motion,TailwindCss,MongoDb

Projects

Afsa-Ai | *Next.js 13 App Router, React, Tailwind, Prisma, MySQL, Clerk.*

13 Nov 2022

- Developed an SaaS Platform where user can generate Video , download Image ,Music,Code generation and Chat .it's Powered by the Next.js 13 App Router, our platform will not only be efficient but also user-centric.

Twitverse | *React ,Tailwind,Next,Prisma ,MongoDb,NextAuth*

10 May 2023

- A twitter clone with functionalities such as: - Authentication system - Notification system - Image Upload using Base64 strings - Prisma ORM with MongoDB - Responsive Layout - 1 To Many Relations (User - Post) - Many To Many Relations (Post - Comment) - Following functionality - Comments / Replies - Likes functionality - Vercel Deployment

Smart Parking System with iot Integration | *python, , javascript,html,Css,Nodejs*

15 Feb 2024

- The Smart Parking System with IoT Integration represents a cutting-edge technological initiative designed to address the intricate challenges of urban parking management. At its core, this system harnesses the power of the Internet of Things (IoT), ushering in a new era of intelligent and responsive parking solutions. The primary objectives are clear: to provide instantaneous and accurate information about parking space availability, to streamline space utilization, and to contribute valuable data for informed urban planning, fostering heightened efficiency and sustainability.

Portfolio | *Next.js App, Framer Motion, TypeScript, Tailwind CSS, Email*

03 May - 2024

- A fresh react portfolio website
